Coastal

BUTANE SERVICE CO.

An authorized dealer of **GENERAC**[®] Stand-by and Portable Models

HOME BACKUP POWER. **COMFORT. SECURITY. CONVENIENCE.**

Generac home backup generator protects your home automatically. It runs on natural gas or liquid propane (LP) fuel, and sits outside just like a central air conditioning unit. A home backup generator delivers power directly to your home's electrical system, backing up your entire home or just the most essential items. Now coming with FREE Mobile Link™, allowing you to monitor the status of your generator on a phone, tablet or computer from anywhere in the world.

Don't forget our new phone app!

Coastal

BUTANE SERVICE CO.

Delivering Energy with Reliability!

is proud to serve the communities of Fort Bend, Wharton and Austin counties.

Our products and services are warming homes, turning the wheels of local businesses, enhancing vacation and weekend family gatherings.

Following modest beginnings, Coastal Butane has steadily grown into one of the largest and most successful independent propane service businesses in the surrounding areas.

The success is built on an unwavering passion for service, fair business dealings and a strong community spirit. In other words, we continue our commitment and loyalty to our customers in the same way as when the company was founded 70 years ago.

We ensure the staff, drivers and service personnel are trained to provide a safe and prompt service - every time!

Power your life by providing quality, affordable power solutions.

What is an automatic stand-by generator?

An automatic stand-by generator is a back-up electrical system that operates whether you are home or away. Within seconds of an outage, it automatically supplies power directly to your home's electrical circuit breaker box. After utility power returns, the generator shuts itself off and waits for the next outage. It operates on natural gas or liquid propane gas and sits outside just like a central air conditioning unit.

When and where would I use a portable generator?

Get power when and where you need it, no matter where you go. Generac's rugged,

dependable portable generators are designed to deliver power wherever you are - from tailgate parties to construction sites. With sizes up to 17,500 watts, you can take your power with you wherever you need it.
